NILES 'WATCHDOGS' WATCH FREEWAY

A "watchdog" committee to oversee completion of the Oakland-San Jose freeway over its last 14-mile-stretch in Washington Township was formed Tuesday by the Niles Chamber of Commerce.

Named to the committee were Elmer Marks, Dr. T. C. Wilson and Stuart Nixon. Marks had asked for the committee to see that the Township isn't overlooked when Alameda County makes its annual plea for road funds next month before the State Highway Commission.

George Mays, Hayward planning commissioner, present at the luncheon, warned local interests to be alert to see that State engineers design "cloverleaf" interchanges which will tie into local traffic circulation.

MISSION BELLS RADIO SIGNATURE

The bells of Mission San Jose de Guadalupe at Mission San Jose are ringing out today on Radio Station KSJO, and General Manager Robert Bruce says they will be heard every hour on the station along with its station identification.

These three bells, which tolled over 125 years ago to call together the padres and hundreds of Indians in Santa Clara Valley, were the earliest sounds to be heard with the coming of the white man to California", Bruce said. "Serving Santa Clara Valley, KSJO has adopted them as a regular signature in the same way that the British Broadcasting System has used the famous tones of 'Big Ben'."

Bruce expressed thanks to Father John Leal, 78-year-old pastor of the Mission San Jose de Guadalupe, founded in 1797, who personally went into the church bell tower to ring them for recording purposes.

The bells are so historic, said Bruce, they are being recorded especially for the Library of Congress.

Each of the three bells, cast in Spain, has an individual name. Two are called "Ave Maria" and the other "S.S. Jose." One weighs half a ton. The date 1815 appears on one and 1824 on another.

Home Rule Might Cost 25¢ Tax Under 'Contract' City, Is Claim

Could Washington Township have its cityhood "cake" and eat it too, in the form of low taxes?

Possibly, according to an opinion expressed Monday before the Centerville Chamber of Commerce by LeRoy Broun, attorney who has explored one form of similar government for a new city near Long Beach.

According to Broun, the city of Lakewood, with 17,000 new homes, incorporated but contracted with the county for services such as sheriff and street work. Existing school, fire and sewer districts continued to operate as before, and taxes went up "only about two bits," Broun said.

He suggested the "contract" policy be investigated for possible Township cityhood, which has been in abeyance since the 1953 Coro Report principally because of the cost of operating "city" services in such a large and relatively unpopulated area.

"It would amount to self government — our own council and planning commission — with the county continuing to carry the burden," he declared. "The incorporated city would start getting its share of State gasoline, liquor and sales taxes, and could use them to pay much of the cost of government."

Broun said the idea was first thought of here several weeks ago in Irvington. Before action could be taken, 25 percent of the voters and owners of 25 percent of the property would have to sign a petition for cityhood, after which an election would be held, he added.

"Landowners and industries ought to start recognizing (cityhood) is inevitable," the attorney asserted. "We have nearly 35,000 people now, and we don't want to get into the same fix as Ashland — a lot of little towns with no influence."

Louis Cardoza suggested the issue be referred to the Township Chamber of Commerce, but Pres. Bill Short asked delay until after a meeting on incorporation in San Lorenzo Village this week.

Bail Upped Over Threat Report

Bail for Tony Guidino, 31, of 530 Fourth St., Decoto, was upped to $4000 here last week after a girl witness said Guidino threatened her with harm if she testified against him on rape and procuring charges.

Guidino originally had been held on $1500 bail. Judge E. A. Quaresma acted after the 16-year-old girl, also from Decoto, said Guidino drove her to his attorney's office in Oakland and threatened he would have other women friends harm her if she testified.

Guidino is to appear Friday for preliminary trial.

Business Zones On Main, Fremont Win Extension

The County Planning Commission last week "gave" grudgingly on two disputed issues of Centerville's zoning, but declined to yield on several others.

Meeting to reconsider the zoning tossed back to them by the Supervisors, the commissioners:

1. Agreed to recommend commercial zoning on Main Street for 600 feet north of Thornton, instead of 200 feet, and

2. Voted to extend business zoning on Fremont as far as Parish Avenue instead of stopping it some 100 yards west.

Both changes had been asked by the local chamber of commerce.

On the controversial 6000-square-foot lot sizes originally recommended, the commission declined a general amendment. In Cabrillo Park, however, 5000-foot lots got the nod in a triangular area next to the Freeway route.

Four lots on the south side of Thornton Avenue in the Orchard Park tract were recommended for commercial rezoning.

The recommendations now go back to the Supervisors, who have the option of zoning the area as they please, now that the commission has passed on it twice. No date is set for the final zoning.

Mrs. Cabebe Dies

Mrs. Sophia B. Cabebe, 46, wife of Entero Cabebe, died Wednesday at her home on Centerville-Irvington Road. She was the mother of Mary, Betty and Albert Cabebe, all of Irvington, and Tonnie Sanchez of San Jose. She also leaves a sister, Mrs. Marie Jaramillo of San Jose. She was a native of New Mexico.

Funeral services will be held Friday at 8:30 a.m. from Chapel of the Palms, Centerville, with 9 o'clock requiem mass at Holy Ghost Church and interment in Santa Clara Catholic Cemetery.

SOCIAL SECURITY CARDS

Workers may now secure applications for Social Security Cards or request change of records (due to change of address or loss of original card) at the County Bldg. Information Office, through Mrs. Dolores Anderson; office hours 8:30 a.m. until 5 p.m.

Well Abandonment May Cost Taxpayers $12,000

With abandonment of its major Newark well under pressure from neighboring farmers, the Alameda County Water District today faced the problem of finding an estimated extra $12,000 per year to make up the loss.

Matt Whitfield Jr., district manager, said the difference will have to come from Hetch-Hetchy pipeline purchases, at an extra $1000 per month, on the average.

Whitfield said he believes the money can be found in the district's $120,000 operating fund, major portion of the 1954-5 budget of over $300,000.

Decision to abandon the well at Mayhews Landing and Haley Roads was taken by a 3-2 vote of the directors last week. Louis Amaral argued opposition of 23 farmers to alleged overpumping, made it good policy to close the well.

It has been supplying about one-third of Newark's water, Whitfield said.

Mrs. Stevenson Dies

Mrs. Emily Stevenson, 73, died July 20 in an Oakland hospital. She was the wife of the late Charles B. Stevenson and mother of Chester A. Boatwright of Twin Palms Court, Niles. Remains were shipped to Waldron, Arkansas for services.

UNION-MILL CONFABS

Negotiations are under way between Local 3367, United Steelworkers (CIO) and Pacific States Steel Corp., of Niles, for renewal of the annual union contract which expires July 31.

LOSES LICENSE

The State Department of Motor Vehicles this week revoked the drivers' license of Henry W. Tennison, RFD Box 545½, Niles, for Tennison's third drunken driving conviction.

ARRESTING SCENE—Motorists on Fremont Avenue last Friday afternoon were first frightened by erratic path of car driven by Edwin Fisher, 54, then treated to sight of Fisher's arrest on drunken driving charges on lawn where he took refuge after being halted by pursuing officer. Above, he raises left arm in angry protest after Deputy Sheriff Tom Bunting (rear) snaps on handcuffs. Mrs. Fisher (foreground) came to husband's aid from nearby home on Tyson Lane. Below, Fisher tries to elude Bunting. Moment later he fell flat, gave up struggle. Tuesday he pleaded guilty, was fined $158 by Judge E. A. Quaresma. (WTN Photos)

NEWARK OKEHS SCHOOL TAX, 232-75

By a margin of 232 to 75, voters in Newark Elementary School District Tuesday voted to approve an increase in the district tax rate from 92 cents to $1.20 per $100 assessed valuation.

Jack MacGregor, district superintendent, said the increase will add about $100,000 to the district's income. The total valuation in the district is about $7,000,000.

$377,795 Aid For Newark 'Junior Hi'

Preliminary State approval for a $377,795 school allocation was received by Jack MacGregor, superintendent of the Newark Elementary School District, in Sacramento last week.

The money will build a 10-classroom 7th and 8th grade school on a 14-acre site between Thornton and Dairy Ave., north of the present school.

A conditional allocation of approximately $7000 for plans and surveys also was granted.

The additional money will be used to take care of increased enrollment at the district's present school, and help finance operation of the district's new school, scheduled to be started late this year, MacGregor said.

The present school ended the year with an enrollment of 820 this year, and by Christmas 1000 pupils are expected, he said.

District trustees this week voted to protest a proposed county road which would cut 80 feet off the new school site between Thornton and Dairy.

LOT SIZE HEARING

Public hearing on reduction of lot sizes from 10,000 to 8000 square feet in Adobe Acres will be held August 3 before the Board of Supervisors. George Roeding Jr. and others who plan subdivisions in the triangle between Alvarado Road, Rock Avenue and the Western Pacific tracks have asked for the reduction in the recently-zoned sector.

$4,000,000 PROJECT

Flood Vote For Central Township Okehed By Supes, Date To Be Set

A flood control project for Centerville, Niles, Decoto and Newark was voted Thursday by the Alameda County Board of supervisors.

Supervisors told their engineer, Herbert Crowle, to set up an election for late September or early October to finance an estimated $4 million worth of canals, levees and other projects which would create zone 5 of the Alameda County Flood Control and Water Conservation District.

There were no official protests at the public hearing in Oakland at which the decision was made.

George Lowry, who farms near Centerville, asked for further explanation of ditches north of town, but Chairman Chester E. Stanley declined to open the discussion again, pointing out the plans have been thoroughly aired at public hearings.

"This is a general project," said Stanley. "The details are not absolutely fixed. The proposed ditches may have to be moved several hundred feet, maybe to the property lines, to accomplish the results we want, with as little inconvenience as possible to the landowners."

Crowle agreed, saying that before construction, the district will have to negotiate with property owners for location of these ditches."

On exhibit were maps showing a spiderweb of open canals and underground culverts to carry off flood waters. Lowry wanted to know "if these won't be undertaken for, say, 20 years?" But Crowle replied:

"They'll be undertaken when development occurs which makes them necessary."

Supervisor Harry Bartell moved to proceed with the project, and his motion received unanimous approval.

Similar projects already have been approved around Irvington, Mt. Eden and Alvarado. The Central Township's project would provide the South Bay Plain with flood control and drainage necessary for development from San Leandro to the Santa Clara County line.

IRVINGTON VOTE SET FOR SCHOOL BONDS, STATE AID

Faced with a subdivision boom that will bring an estimated 1400 extra pupils to the district by the first of the year, Irvington School District trustees Thursday night voted to call a $185,000 bond election and $1,250,000 State Aid election.

The joint elections were set for October 5.

Supt. Gus Robertson said that money must be used at once to build three new schools. The district is bonded at present for $300,000, within $50,000 of its legal limit. Therefore only $50,000 in bonds will have to be sold.

He said, however, the balance should be held in reserve to provide money for schools which will be needed to meet boom growth within the next two years.

Robertson also estimated that the bonds would not increase the present 40 cents per $100 tax rate for bond retirement. He added that as long as the district's need for classrooms continues, the State money will not have to be repaid.

Robertson said that he has taken a survey of the subdivisions that are springing up around Irvington and at present more than 300 homes are under construction, with an additional 1000 to be completed by the first of the year.

Eventual estimates given him by half a dozen subdividers point to 14,000 homes around Irvington in five years.

Irvington now has only one school which will be jammed with 800 pupils this fall.

Robertson suggested other schools might be located north and south of the town and that one additional school be built in a central location to house seventh and eighth grades, shops and homemaking rooms.

The outlying schools would handle kindergarten through sixth grade. This set-up would help eliminate transportation problems and centralize specialized teaching.

Such a plan is being adopted in Newark.

Decoto, Union SD Merger Looms

Merger of the Union Sanitary and Decoto sewer districts appeared near, as directors of the two districts reported this week almost enough names have been secured to annexation petitions.

George Coit, president of the USD, said 2515 property owners have signed the petition in Niles, Centerville and Newark. Al Ferreira, board member for Decoto, said 344 landowners have signed there.

Coit's petition now bears names of more than 55 percent of the landholders in the district, which is the percentage needed if the annexation is to be accomplished without an election. The Decoto petition has almost enough names, Ferreira estimated.

Directors of the two districts will continue to serve as members of a 10-man board, until September, 1956, at which time a five-man board will be elected.

AROUND TOWN

When we walk into the Post Office day after day we wonder when we'll be getting door-to-door delivery. Last year Newark was turned down because of the absence of sidewalks and since that time Los Ranchitos has been completed. Now we find sidewalks appearing here and there in front of the Kvistad homes so if another survey was undertaken Newark would make a better impression.

Say, did you hear of the absent-minded druggist who was asked if he had a wife and replied, from force of habit: "No, but I have something just as good"?

Well, well, we see that the Alameda County Water District directors voted to abandon the Soito well on Haley Road. That is the well we mentioned indirectly a few months back, drawing an answer from M. P. Whitfield, General Manager stating that . . . "there has been no pumping from farmer's wells up to the present date . . . " The Water District DID pump water from that well and was sued by twenty-three property owners to block further pumping. The Water District spent several thousand dollars setting up the Soito well and its abandonment would be a waste of taxpayers money-one reason a minority of the directors wished to keep it running. That is the very same reasoning we followed in arriving at the wording of our original comment . . . to wit: If the District invested so much money setting up the well, then it certainly must be using it.

The call for summer orchestra rehearsal last week found twenty-two youngsters answering. Next rehearsal will be held at 7 p.m. at the Newark Community Center, Sycamore and Dairy this Friday and will be continued the next week, also on a Friday. Ed Maughan was enthusiastic over the prospects for continued interest in the Recreation Departments musical program. Refreshments will be served following the rehearsals. The children, both grammar and high school students, bring their own musical instruments. However an orchestra just isn't an orchestra without a piano and that is the one instrument children can't pack back and forth. The Newark Commuunity Center could sure use one so if any of our readers have any ideas along that line we hope they won't keep them to themselves.

Ivan and Betty Cole enjoyed the weekend visiting friends in Salinas . . . and naturally attending the big round-up and whoop-tee-doo of the annual Salinas Rodeo.

Eight youngsters from the Presbyterian Church attended the Choir School conducted at the Presbyterian Conference Grounds at Lake Tahoe: Rowena Harrison, Jacque Walker, Lillian and Marilyn Armstrong, Gary Boyer, Shirley Barks, Marcia Johnson and Diane Thacker, accompained by Rev. Martin Tonner who was Dean of Boys at the school; Esther Tonner, who was Girls Counselor; and Mrs. Fred Muller. On the way home Mrs. Muller visited a few days with her son, Frederick Muller Jr. and his family in Davis.

Rev. Martin and Esther Tonner took advantage of the opportunity and drove home via Deep Springs so they could enjoy a short visit with their son, Lee, at Deep Springs College. Lee plans to enter College of Pacific in the fall and that will bring him closer to home.

Young Dale Etchison is enjoying his vacation in Tipton, visiting with his aunt, Mrs. Everett Cole.

Ralph and Hope Cardana entertained Marie Carvallo (Hope's sister) of San Leandro for two weeks and while she was here they helped her celebrate her 18th birthday.

Cpl. C. E. Harrison Jr. came home last Wednesday with 15-day leave papers from Fort Lewis, Washington. After enjoying three days of family life and home cooking again, C. E. was ready to accompany his mom and dad to Tahoe where they called for his sister Rowena, at the Choir School. Cpl. Harrison will report back to Fort Lewis when his leave is up.

Paul and Gertrude Cottingham and their little Cottinghams-count 'em, Susie, Jane, Paula, Earle, John David and Charles-packed into their station wagon and drove down to Rio Del Mar for a relaxed weekend of camping out. Carl, the oldest of the little Cottinghams, is in Alturas with Jack Cardell so he missed out on this venture. There were plenty of trees with Cottinghams in the limbs around Santa Cruz for a few days.

Bill and Evelyn Frias and son Kenneth arrived home last Tuesday concluding a month long vacation in New Bedford, Massachusetts visiting relatives. While in New Bedford, Evelyn's sister surprised her with a stork shower. Her mother, Mrs. Mary Lawrence returned with them and will spend a year living here.

Mrs. Nan Goza of Texarkana, Texas is here for an extended visit with her son John and his family on Thornton Avenue.

Frank and Alberta Ferry and daughters, Marilyn and Millicent drove all the way to Canada to spend their two week vacation with Alberta's uncle and aunt, Mr. and Mrs. Charles Schultz in White Rock. Very unusual weather . . . cold and raining but a wonderful 2500-mile vacation just the same . . . with visits to Shasta Dam, Crater Lake and the "Water Festival" in Bend, Oregon.

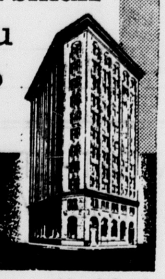

Mrs. Anthony E. Correia and her daughter Winifred returned home last week after enjoying

"Our big freezer is a wonderful money saver"

says Mrs. Robert E. Rudd, 140 Fallen Leaf Drive, Hillsborough, California (shown here with her two sons, Jack and Jerry)

"We started economizing on grocery bills, the day we bought our big food freezer. Stocking up on foods in large quantities, when prices are lowest, certainly pares down the expense of feeding our family. And with California's low electric rates, our freezer costs so little to run."

Gas and electricity are cheap in California

When the Rudds moved to California, they were delighted to find that their combined gas and electric bill was so low.

Their P. G. and E. bill for one month was $15.31

Where they used to live, the same amount of gas and electricity would cost $22.02

Enjoy the better living that today's modern appliances make possible. You can afford to use more of them with P. G. and E.'s low rates for gas and electricity.

John Goza celebrated his 9th birthday last Thursday and things were happening around the Goza home as he and his guests enjoyed games and refreshments. His invited guests included: Randy and Claudia Blazian, Ken and Tommy Gorman, Mike and Tim O'Neil, Timmy Osland, Terry Timmerman and Junior Brannon.

Shortie greetings are on the wires again so lets tap in and see who the first happy birthday goes to . . . it's **Ronnie Silva** who was seven on July 18 . . . to **Ronnie Valles** as he celebrated number nine on July 21 . . . to **Cynthia Robertson** who is fifteen today . . . to **Janet Robertson,** 8 on July 14 . . . to **Neil Robertson** who was four on the 18th . . . and the three of them, all being in one family celebrated with a family party . . . to **Kenneth Gallaway** who celebrates tomorrow (read this, Ken) and starts getting in shape for football.

Editor, Sir:

I see by your paper that Centerville Chamber of Commerce is still trying to push out the small lot developer. I live on one of these unwelcome small lots, here in Orchard Park. The same Chamber members who disapprove of my house accept my money for autos, groceries, hardware, clothing, and drugs. I even have local insurance, doctor and dentist.

I think I spen as much as my counter-part in Glenmoor, but if all the Centerville businessmen feel that we shouldn't have purchased here, I can always take my business elsewhere. Don't forget, we Orchard Park residents are not living here just because we like country backwardness, but because the houses were cheap. I add what I can to the community, attending P.T.A. and church. People who moved here before I did, warned me that Centerville was cold to newcomers, and said they want to see your bankroll first. Is it true?

BE IT FURTHER RESOLVED that the reason for making said changes is because "Alvarado-Centerville Road" was erroneously designated in said Resolution of Intention and in the plans and specifications as "Hesperian Boulevard" and there is no actual change in the nature or extent of the work to be done, and

BE IT FURTHER RESOLVED that said intention of the Sanitary Board of the Union Sanitary District to make said changes in the work to be done in said Assessment District No. 1954-1 shall be done pursuant to the authority granted in Sections 5230, et seq., of the Streets and Highways Code of the State of California, and the Plans and Specifications for the work to be done in Assessment District No. 1954-1.

Plea For Small Lots

John I. Hennessy, executive for the eastbay's Associated Homebuilders, reiterated this plea for "realistic" 5000-square-foot lots on Monday before the Centerville Chamber of Commerce.

Hennessy warned larger lot sizes won't insure better homes. Instead, he went on, the area will lose 20 percent of its potential assessment and purchasing power through the enlarged lots.

A STARTING POINT

The Washington Township Chamber of Commerce, conceived with high hopes and reorganized with somewhat fainter ones, still is our chosen and our best instrument to plan growth and speak for this area.

But events have shown what a blunt instrument it is. Hamstrung by lack of interested members, it remains a potential rather than a dynamic force. This is doubly tragic because just now the Township is passing through a critical period, with much to be done in the field of guidance, planning and execution.

Recognizing the chamber's illness, its directors once more have sought a starting point for surgery. First they have asked outside experts to come here and advise them on what policies to pursue. We think that was wise. What prevents people from joining the Township Chamber, and pungling up their $5 dues is, chiefly, lack of announced policy and program.

Perhaps the outsiders can advise what that policy and program should embrace. With a goal and a pattern, the local men then ought to be able to "sell" this valuable organization to our own citizens — and to industry.

LET THERE BE LIGHTS!

No sooner was the Freeway finished between San Jose and Warm Springs than a fat fly appeared in the ointment: the State failed to provide stoplights at the new intersection, and already several crashes have occurred there.

Now we know all about State Highway policy. It reads roughly — and we MEAN roughly — that lights aren't provided until need is shown. How is need shown? By frequency of accidents at an intersection.

In the case of the former Warm Springs "Y", what we want to know is, why couldn't the State, just for once, put in the lights before the accidents take place? Do engineers doubt they WILL take place? If so, they should spend an afternoon on the spot. Cars coming up off the Freeway barrel through one of the busiest highways in Northern California, and it's only a question of time before people are killed there.

Does lack of money block the lights? Then let the Division of Highways get it from the contractor who left the dips in the last mile of the same Freeway! Or will he get by with that job while accidents occur nearby for lack of cash?

CO-EXISTENCE AND OUR ALLIES

Trying to read between the lines, it seems to us that the U.S. has once more drifted into the shoals and reefs of foreign policy, and that we have by drifting lost whatever power we once had to influence the decisions of our allies.

France is openly negotiating for another Munich in Indo China, and Britain is sweating out some hallucination she calls "co-existence" with the Reds. This apparently leaves America the only world power willing to put it on the line against Communism.

We realize it is hard to live as close under the gun as France and Britain are living. What we're afraid is that, in an attempt to keep our allies, the U.S. will permit our allies' fear-dictated policies to become our own.

This obviously could lead only to abdication of our leadership, and to our piece-meal defeat and enslavement. We trust the niceties of diplomacy won't blind Mr. Dulles and his boss to the possibility.

A SUMMER'S SAIL

The voyage of the raft Lehi makes good summer reading, even if it did end on a flat note. Conceived in a sort of scientific haze, with little to be proven or learned, the trip was a harmless adventure, with just enough overtones of swashbuckle, suspense and mutiny to make it interesting.

Perhaps the very uselessness of the project held its greatest public appeal. We are tired of going everywhere with a purpose, and sometimes long for the substitute offered by Alice in Wonderland, who suggested we go instead with a porpoise. A Lehi with a literal porpoise would have been, we think, irresistible.

Otto Tausheck's, 366 Mattos [illegible]ive.

Joe Meadows has stolen the show by introducing a new fashion note in men's haberdashery to local dancing circles. He wears a small, colorful towel neatly draped from his belt! This is not only a handsome costume accessory, gents, but is useful for mopping the brow between dances these warm summer nights, yes Joe?

Patio Party

Come and bring your gayest mood! For this is to be a patio party . . . a party of carefree abandon . . . a party that demands a colorful setting.

With casual entertainment such as this in mind, and for many informal meals, the artisans of the silver world have turned their hand to stainless steel, because it applies so perfectly to casual living, and there is beauty in its flawless lustre. This is exemplified in William A. Rogers' Northland pattern by Oneida, Ltd., noted for its smooth planes, its simple fluted decoration. Though inexpensive, it has all the grace of good silver.

In this particular setting it plays a perfect cantata with the hand-loomed Mexican cloth, the Mexican pottery, the bread baskets and raffia-handled beverage pot.

It will prove itself equally in tune for family breakfasts, brunch parties, luncheons—wherever people gather to enjoy casual, effortless dining.

LIGHT OPERAS

The 1954 Summer Series of the Oakland Light Opera Association, under the auspices of the Joaquin Miller Foundation in cooperation with the Oakland Park Department, will feature three classic light operas at Woodminster Amphitheatre in Joaquin Miller Park.

The first production will be Rudolph Friml's "Rose Marie", July 22, 23, 24. This will be followed by Victor Herbert's "The Red Mill", August 19, 20, 21, and Sigmund Romberg's "Blossom Time", September 16, 17, 18.

Tickets are now on sale at Sherman Clay's Oakland Box Office.

SUZY SEZ...

A sign of the children's growth, says a Newark mother, is that the third, instead of the second, window of her french doors is smeared with small hand prints, jam, and mud.

The reason that Hillview Crest family has so much company is that the children have twenty-eight aunts and uncles, and most of 'em are the visiting kind. And they bring their children and pets.

I can't help but wonder what's behind that eight-foot fence in Newark? Child or beast?

I think the reason the Centerville woman calls everyone "honey" is that she can't remember names.

Those who "Know" say the Niles fire department was instrumental in saving the Decoto mill from further destruction.

I'll never explain it, but some how or other I got maple syrup in my hair last Tuseday. I was cleaning cupboards at the time.

It was nice of the Township minister to lend a hand when he found the couple in the middle of re-covering a chair. In fact, as he approached the house he heard muttered "words," and caused some red faces when he rang the bell.

One of the things I've heard from some amateur chefs is to use pancake batter for coating oysters and shrimp before frying.

Pity the poor fellow who purchased one of those sprinklers that will get to the corners of the yard, then moved into a corner lot, with a curving lawn all across the front..

I hope the crinoline skirts are popular for another year. I felt like a belle of the old South in mine.

Well! Thank goodness it was not a short style. I mean the cotton print shortie-gown a woman was wearing while she washed her Fremont Avenue windows.

I bet he wasn't so calm at home as he was at the paint store-I mean that Irvington man who returned four gallons of house paint. His wife hated the color.

A Centerville man who recently stopped smoking says people never left packages of cigaretts around while he was smoking 'em. Now there seem to be a pack or two left after each visitor.

If you're tired of having the children under foot, pack a few sandwiches and picnic in a neighbor's yard. Invite her over for a change the next time.

A little Niles boy of five whose dad does some carpentry was so pleased with the hammer and saw of his own he took 'em to bed with him the first night.

It was a ripe watermelon I picked out for a family picnic. And when I dropped it on the kitchen floor, it splattered almost to the ceiling. We ate "store cake" for dessert, after all.

Try upholster's cording for an extra belt for your "squaw" dress.

Another vacation idea: Let the youngsters plan and cook, and most important, clean up after, a meal a day. Fun for all, if you like hot dogs!

So long . . .

MISSION SAN JOSE

By TEDDY PEREIRA

Correction, huh? I sure hope that cute little school teacher will read this, as that was the info given us when we tried to park the Mission float on them. Now it turns out the school did not make it but the C. of C. did - Anyhow they were all very nice about it and it was a lovely float.

The last few days have certainly been anxious ones for all of us when we learned our Tony Marshall suffered a heart attack, but is doing nicely now.

"A well deserved vacation" came to an end for Mr. and Mrs. Al Estacio as they returned from Georgetown, Lake Tahoe and the surrounding area.

Some folks do not believe in planning, such was the case of Octovia Young. She tosses her broom down and says "I'm hitting the highways," and she did with Mary Vieux and Bill Turner-they took off for a couple of days to Reno.

The McGowan family received word their son Robert is now in Korea, on M. P. duty.

Maud and Chet Holtz shook off the heat and took off to Round Mountain where they spent a few days with Elsie and Louie Souza camping out.

Congratulations Ann Williams and may each year be as successful as the anniversary of your "first" you just celebrated. Friends from San Francisco and the bay area came to extend Ann their good wishes and her dining place was banked with flowers and plants. Even "Tippy" got an extra steak.

When employment couldn't be found around this territory Charles Schneider and Reno de Bernardo took off to San Luis Obispo and they really landed splended jobs.

Vacationing at Tahoe are little Diane and Michael Santos. Glen and Lois Bottenberg will join them shortly.

Little Jackie Brower was surely one happy little girl as she celebrated her 6th birthday June 13, nice presents and a family dinner included.

"And" what a lovely birthday Iris Lofton had for herself, her gifts were simply out of this world. Iris may every birthday be as happy as this one.

This News really warms our hearts as we learn David Telles is progressing enough so that he is permitted to come home every other week end.

Which reminds me Irene Telles what are you doing fussing around with the flu? sure hope you're feeling much better.

Texas visitors - Faye Castro was surprised with a visit from the John Doyles and family, life long friends from Dallas Texas.

No wonder we haven't seen the Gustines around. They have been spending several days at their Santa Cruz beach home.

Tom Cunha and Jack Pereira attended an important meeting at the San Lorenzo fire-dept Friday, and that reminds me Jack was not only thanking his own men for fighting that terrific fire last week, but the out siders and strangers who got right in and helped.

The Baptist Sunday School, had such a happy day with a picnic for their bible class members and parents.

The Cliff House in San Francisco, fronting the Pacific and overlooking Seal Rocks, once a gay resort of the 90s, is now a modern restaurant.

What Happens To Your Food Dollar?

A question many of us have asked during the past few years is what actually happens to our food dollar. Taking as an example domestically produced foods, the Grocery Manufacturers of America have recently completed an analysis of the 1953 cost of the family "market basket," as reported by the U. S. Department of Agriculture.

Paul S. Willis, President of GMA, tells us that prices are holding firm at present, with no drastic changes . . . up or down . . . expected in the grocery basket.

In 1953 the farmer received on an average 45 cents of our food dollar to cover costs and profit of producing raw agricultural products. The remainder, or "spread," of 55 cents covers the many essential services—all along the Life Line of America—in transforming the raw crop into a food in the grocery basket—research, transportation, processing, wholesaling and retailing.

The largest cost among these services was wages and salaries—27½ cents of the food dollar (half of the entire spread.) Another 6½ cents went for transportation cost, and 4 cents for manufacturer and distributor income taxes. All remaining expenses, including other taxes, packaging materials, rent, depreciation, etc., amounted to 14 cents. This left only 3 cents of the consumer's food dollar as the combined net profits of the processor, the distributor, and the retailer.

Wages, taxes, and transportation add to more than two-thirds of the entire 1953 spread. From 1946 to 1953 the spread for processing, transporting and distributing the annual family market basket rose $180. Higher cost of wages, business income taxes, and transportation, plus the removal of government subsidies, accounted for 90% of this increase.

Manufacturer and distributor net profits, on the other hand, declined over this period. In 1953 they represented $9 less of the retail market basket cost than in 1946.

TOWNSHIP TOPICS

This Week's Question: **Should Centerville incorporate into a city in order to have a real local government?**

"In the short time I've been here, I think the town is growing so it would have to happen any way. I think it's a good idea." **Mrs. Shirley Stocking,** 403 Dogwood, Centerville.

"Sure, I think the bigger it gets, the better off we are." **Mrs. Jesslyn Williams,** Martha Avenue, Centerville.

"No, it's just nice the way it is." **Joe Loga Jr.** P. O. Box 1054, Centerville.

"I would say with the growing population its going to be a necessity." **Charles Allen,** P. O. Box 311, Centerville.

"I don't know too much about it. The way we are taxed now, I don't like to see any tax raise." **Edward Valdez,** 407 Westwood, Centerville.

"Yes, I think they should." **Miss Kathleen Burford,** 125 Parrish, Centerville.

"I believe the whole Township should be incorporated." **Gary Rehrig,** 172 Pine, Centerville.

"Sure, it's growing up to be a town now. We should get incorporated because it's better for the town itself." **William Mulligan,** Santos Road, Centerville.

"I think it would be alright." **Mrs. Louise Rose,** P. O. Box 67, Centerville.

"It's my opinion if we're going to have any say in government we'll have to do that." **Mrs. Gloria Pimentel,** 243 South Main Street, Centerville.

"No, it's a little bit too small to incorporate." **Wayne Russell,** 144 Pine Street, Centerville.

"Yes, they ought to, they need it. It should do something to get the town on its feet." **Charles Mathews,** 167 Blacow Road, Centerville.

County Supervisor Chester E. Stanley attended the July 16 meeting of the Board of Directors of the County Supervisors Association of California in Los Angeles.

Top items were the report on the Association's success in airing the counties' point of view before Congressional committees on securing payments in lieu of taxes on real property which the Federal Government holds tax exempt. Over 55% of the land in California is removed from the counties' ad valorum tax base, through these holdings.
